

I am alarmed by Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election. I have found their public statements to be biased and insincere in their efforts to justify this as "news." It is clearly not news and it is done with a political agenda in mind. Yet, Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest.

It seems not only appropriate but imperative that FCC review this inappropriate use of public airwaves for the use of special/political interest rather than the public interest. Thank you.
